Index of Issues: January, pp. 1–138; February, pp. 139–274; March, pp. 275–424; April, pp. 425–550; May, pp. 551–698; June, pp. 699–860.

INDEX OF SUBJECTS

Original Articles

A

Acridine orange, vital stain for automated differential leukocyte counts, 95
Adenoviruses, characteristics and laboratory diagnosis, 771
Adrenal hypoplasia, idiopathic, in children, 287
Agglutination
  antistreptolysin O determination using sheep cells, 598
  rapid dilution technic, 538
Agglutinins, cold, cause of erroneous Coulter Counter Model S values, 421
Albumin Cartago, "new" slow-moving alloalbumin, 247
Alkaline phosphatase
  serum
    measurement of placental isoenzymes, 65
    normal isoenzymes examined by electrophoresis, 52
  transphosphorylation, 167
  usefulness of isoenzyme determinations, 625
Ameba, cellulocutaneous invasion and visceral lesions following subcutaneous injection, 375
Amino acid in urine of workers in lead and cadmium industries, 635
ε-aminocaproic acid, treatment for deficiency of fibrin stabilizing factor, 364
Amylase, semiautomated saccharogenic assay, 497
Anemia
  hemoglobin crystallization test to differentiate hemoglobinopathies, 467
  recognition in patients with portal cirrhosis, 618
  secondary, role of cholinesterase, 494
  sideroblastic, associated with cytogenetic aberrations of bone marrow cells, 348
Antibiotics, causing aberrant forms of bacteria, 406
Antibiotic sensitivity, quality control of disk test of Bauer-Kirby-Sherris-Turck, 592
Antibody
  anti-Di^a found after multiple transfusions, 113
  hepatitis-associated, safety precautions for performing tests, 526
  Lewis, neutralization *in vivo* and transfusion of incompatible blood, 489
Antigen
  Australia, presence in patients with Down's syndrome, 2
  hepatitis-associated, safety precautions for performing tests, 526
  human leukocytes for detection of antinuclear factor, 463
  iso-, preceding distant metastasis in malignancy, 715
Antistreptolysin O
  determination using sheep cell agglutination, 598
  rapid dilution technic, 538
  tube dilution procedure, 209
Apparatus
  adaption of incident light to the automated fluorescent treponemal antibody test, 395
  atomic absorption spectrophotometer for determination of serum zinc concentration, 506
  AutoAnalyzer
    measurement of placental isoenzyme of alkaline phosphatase, 65
    saccharogenic method for serum amylase assay, 497
  automatic clinical analyzer, evaluation, 643
  comparative methodology
    cytofluorometer and cytospectrophotometer for differential leukocyte counts, 95
    Fibrometer System and Bio/Data Coagulation analyzer, 369
  computer-assisted spectrophotometric analysis of amniotic fluid in eyrthroblastosis fetalis, 659
  computer
    desk-top for selection of correct group and type of blood for exchange transfusions, 106
    evaluation of chemistry values, 664
    systemized microbiology reporting, 413
  Coulter Counter Model S
    stromatolysing and cyanide reagent, 537
    warm blood to correct errors due to cold agglutinins, 421, 422
  disk antibiotic susceptibility test of Bauer-Kirby-Sherris-Turck, quality control, 492
  electrophoresis
    examination of normal serum alkaline phosphatase isoenzymes, 52
    separation of erythrocyte glucose-6-phosphate dehydrogenase on cellulose acetate plates, 534
    two-dimensional polyacrylamide, 173
  fibrometer, reproducibility of one-stage prothrombin times, 482
  immunodiffusion, single radial, for quantitation of plasma fibrinogen, 89

Original Articles—*Continued*

immunoelectrophoresis on cellulose acetate membranes, 326
immunoosmophoresis, to demonstrate alpha fetoprotein, 511
microtiter system for serial dilutions and standardization using radioiodinated albumin, 332
SeroMatic system (automated slide-processing equipment), evaluation as indirect immunofluorescent test for syphilis, 391
shaft driven centrifuge pumps, modification to extend gasket life, 419
spectrophotometer power supply for electrophoresis, 540
staph-strep coagulase test, 531
support of disposable razor blades for use as microtome knives, 543
thin-layer chromatography and spectrofluorometry for identification of drugs of abuse in urine, 43
timer for the AutoAnalyzer Sampler-II and IBM Model 1894 Buffered Sampler Reader, 689
ultramicro dilutor in clinical chemistry, 75
Arbovirus, laboratory diagnosis, 762
Artery, decreased plasma fibrinolytic activity in coronary thrombosis, 359
Aspirin, effect on assay of homovanillic acid in urine, 324
Autopsy protocols and the law, 144

B

Bacteriology
blood cultures showing aberrant forms of bacteria, 406
cellulocutaneous invasion and visceral lesions following subcutaneous injection of *Naegleria aerobia*, 375
comparative methodology, blood culture systems, 220
computerized system for clinical microbiology, 413
disk antibiotic susceptibility test of Bauer-Kirby-Sherris-Turck, quality control, 592
endocarditis due to *Flavobacterium meningosepticum*, 410
Erwinia species, causing disease in humans, 400
evaluation of the staph-strip coagulase test, 531
evaluation of 2%-LSM medium for isolation and identification of staphylococci, 236
in vivo toxigenicity test for *Corynebacterium diphtheriae*, 244
new selective media for isolation of *Streptococcus hemolyticus*, 228
new test to differentiate Serratia from Enterobacter, 241
pyocine typing of *Pseudomonas aeruginosa*, 35
serodiagnosis of Candidal infection, 195
single blood culture to confirm diagnosis of neonatal septicemia, 215
transferrin and *Staphylococcus aureus* in Kwashiorkor, 587
transport media for *Vibrio parahemolyticus*, 33
Bilirubin
computer-assisted spectrophotometric analysis of amniotic fluid in erythroblastosis fetalis, 659
total, determination using automatic clinical analyzer, 643
Blood
see also anemia, coagulation, hemoglobin, leukemia, plasma, and serum
comparative methodology, Fibrometer System and Bio/Data Coagulation Analyzer, 369
detection of sickle cell hemoglobin (Hb S), 124
evaluation of the mononucleosis spot test in lymphomas, 251
evaluation of three blood culture systems, 220
latex antistreptolysin O test as a tube dilution procedure, 209
linear films for accurate differential leukocyte counts, 693
neonatal septicemia, diagnosis by single blood culture, 215
neutralization of Lewis antibodies *in vivo*, 489
one-stage assay for prothrombin time, 352
polychromatophilic erythrocyte, 471
quantitation of platelet aggregation in myeloproliferative disorders, 336
rapid dilution technic for the antistreptolysin O titer, 538
rapid test for sickle cell hemoglobin, 123
role of cholinesterase in secondary anemia, 494
safety precautions for performing tests for hepatitis-associated "Australia" antigen and antibodies, 526
warming to correct erroneous values from Coulter Counter Model S, 421
Blood banking
anti-Di^a found after multiple transfusions, 113
neutralization of Lewis antibodies *in vivo*, 489
use of desk-top computer for selection of correct group and type of blood for exchange transfusions, 106
safety precautions for performing tests for hepatitis-associated "Australia" antigen and antibodies, 526
Bone, malignant neoplasms, usefulness of alkaline phosphatase isoenzyme determinations, 625
Bone marrow
greenish-blue granular histiocytes associated with low cholesterol, 103
lipid granulomas of, 457
sideroblastic anemia associated with cytogenetic aberrations of cells, 348

Original Articles—*Continued*

simple fixation-decalcification and iron staining technic for specimens, 373
Breast
carcinoma in women taking hormonal contraceptives, 139
gynecomastia, 431

C

Candida albicans, serodiagnosis of, 195
Cerebrospinal fluid
importance of pre-albumin, alpha$_1$, alpha$_2$, and tau fractions, 251
importance of tau globulin fraction in, 252
Chemistry
albumin Cartago, "new" slow-moving alloalbumin, 247
alkaline phosphatase isoenzymes examined by electrophoresis, 52
applications of ultramicro dilutor, 75
computer-assisted spectrophotometric analysis of amniotic fluid, 659
computer evaluation of chemistry values, 664
effect of aspirin on assay of homovanillic acid in urine, 324
evaluation of automatic clinical analyzer, 643
immunoelectrophoresis on cellulose acetate membranes, 326
importance of pre-albumin, alpha$_1$, alpha$_2$, and tau fractions in cerebrospinal fluid, 251
importance of tau globulin fraction in cerebrospinal fluid, 252
rapid method for detection of erythrocyte NADH-methemoglobin reductase deficiency, 186
serum zinc concentrations determined by atomic absorption spectrophotometry, 506
transphosphorylation by human alkaline phosphatases, 167
Chemotherapy, topical for skin cancer, 118
Cholesterol, serum, associated with greenish-blue granular marrow histiocytes, 103
Cholinesterase, role in secondary anemia, 494
Chromosome
deviation in sideroblastic anemia associated with cytogenetic aberrations of bone marrow cells, 348
histopathologic study with cytogenetic correlation in gonadal dysgenesis, 449
nuclear sex identification in human tissues, 425
Coagulase test, evaluation of staph-strip, 531
Coagulation
alteration of platelet adhesion to glass, 611
comparative methodology, Fibrometer System and Bio/Data Coagulation Analyzer, 369
deficiency of fibrin stabilizing factor, 364
disseminated intravascular, nonspecificity of protamine test, 487
fibrinolytic activity in acute myocardial infarction, 359
intravascular, following injection of prothrombin complex, 603
one-stage prothrombin time, 352
for control of anticoagulant therapy, 117
reproducibility, 482
partial thromboplastin time and Factor VIII therapy, 478
standardization of therapeutic range for oral anticoagulants, 80
Concanavallin A, reaction with Australia antigen, 253
Computer
evaluation of chemistry values, 664
program as aid in spectrophotometric analysis of amniotic fluid, 659
Contraceptives, hormonal, mammary neoplasm, 139
Corynebacterium diphtheriae, in vivo toxigenicity test, 244
Cryptococcus neoformans, primary infection of skin, 13
Cytology
plant cells resembling tumor cells in routine cytology, 303
simple method for examination of feces, 387

D

Death, sudden in infants, idiopathic adrenal hypoplasia, 287
Diabetes mellitus
alteration of platelet adhesion to glass, 611
serum insulin levels of patients undergoing chronic hemodialysis, 320
Down's syndrome, anicteric hepatitis with Australia antigen in patients, 2
Drugs of abuse, identification in urine, 43
Dubin-Johnson syndrome, electron microscopic observation of hepatic pigment, 306

E

Edema, ovarian and virilizing syndrome, 545, 546
Electrophoresis
acrylamide and starch gel, examination of serum alkaline phosphatase, 52
determination of protein in cerebrospinal fluid, 251, 252
determination of variants of human serum albumin, 247
separation of erythrocyte glucose-6-phosphate dehydrogenase on cellulose acetate plates, 534
spectrophotometer power supply, 540
two-dimensional polyacrylamide, 173
usefulness of alkaline phosphatase isoenzyme determinations, 625

Original Articles—*Continued*

Embolism, endometriosis of lung, 311
Endocarditis due to *Flavobacterium meningosepticum*, 410
Endocrine
  psammoma bodies in diffuse toxic goiter, 551
  ultrastructural alteration in Tay-Sachs disease, 557
Endometriosis of the lung, 311
Endometrium, adenocarcinoma, morphologically variant types, 562
Enterobacter cloacae aberrant forms, 406
Enterobacter species, new test to differentiate from Serratia, 241
Enteroviruses, laboratory diagnosis of, 751
Enzymes
  alkaline phosphatase isoenzymes, clinical usefulness of determinations, 625
  determination using automatic clinical analyzer, 643
  examination of serum alkaline phosphatase isoenzymes by electrophoresis, 52
  measurement of placental isoenzymes of alkaline phosphatase, 65
  pancreatic inhibitors, 121
  role of cholinesterase in secondary anemia, 494
  separation of erythrocyte glucose-6-phosphate dehydrogenase by electrophoresis on cellulose acetate plates, 534
  transphosphorylation by human alkaline phosphatases, 167
Epidemiology
  Cary-Blair, a transport medium for *Vibrio parahemolyticus*, 33
  pyocine typing of *Pseudomonas aeruginosa*, 35
Erwinia species causing disease in humans, 400
Erythroblastosis fetalis
  computer-assisted spectrophotometric analysis of amniotic fluid, 659
  use of desk-top computer for selection of correct group and type of blood for exchange transfusions, 106
Erythrocyte
  detection of sickle cell hemoglobin (Hb S), 124
  polychromatophilic, 471
  rapid method for detection of NADH-methemoglobin reductase deficiency, 186
  rapid test for sickle cell hemoglobin, 123
  role of cholinesterase in secondary anemia, 494
  separation of glucose-6-phosphate dehydrogenase on cellulose acetate plates, 534
  survival, in patients with portal cirrhosis, 618
Erythropoietin, and polychromatophilic erythrocyte, 471
Escherichia coli, aberrant forms, 406

F

Farmer's lung, simple hemagglutination test, 206
Feces
  cytologic examination of diarrheal stools, 387
  examination for parasites, 122, 123
Fibrin, disseminated intravascular coagulation, nonspecificity of protamine test, 487
Fibrinogen, plasma, quantitated by single radial immunodiffusion, 89
Fibrinolysis, due to deficiency of fibrin stabilizing factor, 364
Fibrin stabilizing factor, deficiency, treated with ε-aminocaproic acid and prednisone, 364
Filariasis, morphology of *Onchocerca volvulus*, 574
Flavobacterium meningosepticum, cause of subacute bacterial endocarditis, 410
Fungi, new stain for systemic in tissue, 27

G

Genetics, cytogenetic correlation in gonadal dysgenesis, 449
Glucose determination using automatic clinical analyzer, 643
Glucose-6-phosphate dehydrogenase, erythrocyte, separation of variants by electrophoresis on cellular acetate plates, 534
Goiter, diffuse toxic, psammoma bodies, 551
Gonads, cytogenetic correlation in dysgenesis, 449
Granulomas of bone marrow, 457
Gynecomastia, clinicopathologic study, 431

H

Haptoglobin, in patients with portal cirrhosis, 618
Heart
  fibrinolytic activity in acute myocardial infarction, 359
  subacute bacterial endocarditis caused by *Flavobacterium meningosepticum*, 410
Hemagglutination
  inhibition immunoassay, quality control of microtiter system, 332
  inhibition test for diagnosis of rubella and measles (rubeola), 803
Hematology
  anti-Di^a found after multiple transfusions, 113
  comparative methodology
    Fibrometer System and Bio/Data Coagulation Analyzer, 369
    for determination of sickle cell hemoglobin (Hb S), 124
    rapid test for sickle cell hemoglobin, 123
  crystallization test to differentiate hemoglobinopathies, 467
  greenish-blue granular marrow histiocytes associated with low serum cholesterol, 103

Original Articles—*Continued*

human leukocytes, for detection of antinuclear factor, 463
latex antistreptolysin O test as a tube dilution procedure, 209
linear blood films for accurate differential leukocyte counts, 693
malignant histiocytosis with cutaneous involvement and eosinophilia, 438
partial thromboplastin time and Factor VIII therapy, 478
polychromatophilic erythrocyte, 471
quantitation of platelet aggregation in myeloproliferative disorders, 336
rapid dilution technic for the antistreptolysin O titer, 538
recognition of hemolytic disease in patients with portal cirrhosis, 618
reproducibility of one-stage prothrombin time, 482
use of desk-top computer for selection of correct group and type of blood for exchange transfusion, 106
warming blood to correct erroneous values from Coulter Counter Model S, 421, 422

Hemoglobin
crystallization test to differentiate hemoglobinopathies, 467
Sickle cell
comparative methodology for detection, 124
rapid test, 123
spectrophotometer power supply for electrophoresis, 540
stromatolysing and cyanide reagent for use with Coulter Counter Model S, 537

Hepatitis, anicteric, and Australia antigen in patients with Down's syndrome, 2

Herpesviruses, recent studies, 783

Histiocyte, greenish-blue, in marrow associated with low serum cholesterol, 103

Histiocytosis, malignant, with cutaneous involvement and eosinophilia, 438

Histology, support of disposable razor blades for use as microtome knives, 543

Homovanillic acid assay in urine, effect of aspirin on, 324

Hormone
contraceptives, mammary carcinomas in women, 139
serum insulin levels of patients undergoing chronic hemodialysis, 320
ultrastructural alterations of endocrine glands in Tay-Sachs disease, 557

Hyperthyroidism, psammoma bodies, 551

I

Immunodiffusion, single radial, for quantitation of plasma fibrinogen, 89

Immunoelectrophoresis on cellulose acetate membranes, 326

Immunofluorescence, greater intensity with incident light in automated fluorescent treponemal antibody test, 395

Immunofluorescent technic for rapid diagnosis of viral infections, 829

Immunology
anti-Di^a found after multiple transfusions, 113
antistreptolysin O determination by sheep cell agglutination, 598
automated fluorescent treponemal antibody test for syphilis, 391
early diagnosis and prognosis of carcinoma, 715
human leukocytes for detection of antinuclear factor, 463
immunofluorescent technic for diagnosis of viral infections, 829
laboratory diagnosis of rubella and measles (rubeola), 803
radioisotopes for standardization of microtiter system, inhibition immunoassay, 332
reaction between concanavallin A and the Australia antigen, 253
simple hemagglutination test for Farmer's lung, 206
single radial immunodiffusion for quantitation of plasma fibrinogen, 89
use of incident light in immunofluorescence applied to syphilis serology, 395
yolk sac carcinoma of the ovary with alpha fetoprotein in serum and ascitic fluid, 511

Immunoosmophoresis, used to demonstrate alpha fetoprotein in serum and ascitic fluid, 511

Industrial hazards, aminoaciduria in workers in lead and cadmium industries, 635

Infants
neonatal septicemia, diagnosis by single blood culture, 215
sudden death, idiopathic adrenal hypoplasia, 287

Infectious mononucleosis spot test, evaluation in lymphoma, 251

Isotopes, see radioisotopes

Insulin, serum levels of patients undergoing chronic hemodialysis, 320

Intestines
examination of feces for parasites, 122, 123
malignant neoplasms, usefulness of alkaline phosphatase isoenzyme determinations, 625

J

Jaundice, chronic idiopathic, electron microscopic observation of hepatic pigment, 306

Original Articles—*Continued*

K

Kala-Azar in Iran, 156
Kidney, malignant neoplasms, usefulness of alkaline phosphatase isoenzyme determinations, 625
Klebsiella pneumoniae, aberrant forms, 406
Kwashiorkor, transferrin and *Staphylococcus aureus* in, 587

L

Laboratory
  computerized system for clinical microbiology, 413
  pathology reports and autopsy protocols, and the law, 144
  regional quality control program, 676
  reproducibility of one-stage prothrombin times, 482
  safety precautions for performing tests for hepatitis-associated "Australia" antigen and antibodies, 526
Laboratory data, SD unit system for standardized reporting and interpretation, 517
Law, relating to pathology reports and autopsy protocols, 144
Leishmania donovani, in Iran, 156
Leishmaniasis, visceral in Iran, 156
Leukemia, evaluation of the mononucleosis spot test in lymphomas, 251
Leukocyte
  acridine orange as a vital stain for automated differential counts, 95
  as antigen for detection of antinuclear factor, 463
  eosinophilia, in malignant histiocytosis, 438
  linear blood films for accurate counts, 693
  stromatolysing and cyanide reagent for use with Coulter Counter Model S, 537
Lipid granuloma of bone marrow, 457
Liver
  anicteric hepatitis and Australia antigen in patients with Down's syndrome, 2
  Dubin-Johnson syndrome, 306
  malignant neoplasm, usefulness of alkaline phosphatase isoenzyme determinations, 625
  recognition of hemolytic disease in patients with portal cirrhosis, 618
  safety precautions for performing test for hepatitis-associated "Australia" antigen and antibodies, 526
Lung
  endometriosis of, 311
  occurrence of psammoma bodies in adenocarcinoma, 297
  simple hemagglutination test for Farmer's lung, 206
Lupus erythematosus cell preparation, modified procedure for detection of antinuclear factor using human leukocytes, 463
Lymph nodes
  malignant histiocytosis with cutaneous involvement and eosinophilia, 438
  presence of fungi in postmortem tissue, 212
Lymphoepithelial carcinoma, anaplastic in Alaskan natives, 275

M

Measles, laboratory diagnosis, 803
Methemoglobinemia, hereditary, rapid method for detection, 186
Micrococcaceae, staph-strip coagulase test, 531
Microscopy
  electron
    alterations of endocrine glands in Tay-Sachs disease, 557
    Leishman-Donovan bodies, 156
    observation of hepatic pigment in Dubin-Johnson syndrome, 306
    ultrastructure of cryptococcosis, 13
  fluorescent
    modified procedure for the detection of antinuclear factor, 463
    nuclear sex identification in human tissues, 425
  interference contrast for identification of urinary sediments, 316
Microtiter system, standardization using radioiodinated albumin, 332
Mycology
  cutaneous sporotrichosis, 23
  effect of gentamicin on growth of yeast, 30
  examination of lymph nodes for fungi at necropsy, 212
  new stain for systemic fungi in tissue, 27
  primary cutaneous cryptococcosis, 13
  serodiagnosis of Candidal infections, 195
  simplified hemagglutination test for Farmer's lung, 206
Myeloproliferative disorders, quantitation of platelet aggregation, 336
Myxovirus, laboratory diagnosis, 777

N

Naegleria aerobia, cellulocutaneous invasion with generalized visceral lesions following subcutaneous inoculation, 375
Narcotics, identification of biotransformed drugs of abuse in urine, 43
Neoplasm, malignant
  adenocarcinoma, morphologically variant types of the endometrium, 562
  anaplastic carcinoma of the parotid glands in Alaskan natives, 275

Original Articles—*Continued*

evaluation of mononucleosis spot test in lymphoma, 251
immunologic diagnosis and prognosis of carcinoma, 715
in women taking hormonal contraceptives, 139
occurrence of psammoma bodies in papillary adenocarcinoma of the lung, 297
plant cells resembling tumor cells, 303
topically applied chemotherapy for skin cancer, 118
usefulness of alkaline phosphatase isoenzyme determinations, 625
yolk sac carcinoma of ovary with alpha fetoprotein in serum and ascitic fluid, 511

O

Onchocerca volvulus, morphology, 574
Ovary
edema, and virilizing syndrome, 545, 546
yolk sac carcinoma with alpha fetoprotein in serum and ascitic fluid, 511

P

Pancreas, enzyme inhibitors, 121
Parotid gland, anaplastic carcinoma in Alaskan natives, 275
Parasitology
cellulocutaneous invasion with visceral lesions following subcutaneous injection of *Naegleria aerobia*, 375
examination of feces, 122, 123
morphology of *Onchocerca volvulus*, 574
visceral leishmaniasis, 156
Philip Levine Award Address, 715
Plant cells resembling tumor cells in routine cytology, 303
Plasma
fibrinogen
activity in acute myocardial infarction, 359
quantitation of single radial immunodiffusion, 89
reference, used for standardization of therapeutic oral anticoagulants, 80
role of cholinesterase in secondary anemia, 494
Platelets
alteration of adhesion to glass in vascular disorders, 611
quantitation of aggregation in myeloproliferative disorders, 336
Pregnancy, placental isoenzyme of alkaline phosphatase in sera, 65
Protamine test, nonspecificity for disseminated intravascular coagulation, 487
Protein, total, determination using automatic clinical analyzer, 643
Prothrombin complex, intravascular coagulation following injection, 603
Prothrombin time
comparative methodology, one-stage assay, 352
one-stage test for control of anticoagulant therapy, 117
reproducibility, 482
Psammoma bodies
in diffuse toxic goiter, 551
occurrence in papillary adenocarcinoma of lung, 297
Pseudomonas aeruginosa, pyocine typing, 35
Pumps, centrifugal, modification to extend gasket life and prevent leakage, 419
Pyocine typing of *Pseudomonas aeruginosa*, 35

Q

Quality control
regional program, 676
with the disk antibiotic susceptibility test of Bauer-Kirby-Sherris-Turck, 592

R

Rabies, laboratory diagnosis and postexposure treatment, 794
Radioisotopes
for standardization of microtiter system, 332
immunoassay of serum insulin levels of patients undergoing chronic hemodialysis, 320
reaction between concanavallin A and the Australia antigen, 253
Reticulocyte, polychromatophilic erythrocyte, 471
Reticuloendothelial system, malignant histiocytosis with cutaneous involvement and eosinophilia, 438
Rubella, laboratory diagnosis of, 803
Rubeola, laboratory diagnosis of, 803

S

Salicylates, effect on assay of homovanillic acid in urine, 324
Salivary gland, anaplastic carcinoma in Alaskan natives, 275
Screening tests, isolation of viruses from a wide spectrum of clinical specimens, 188
Serology
antistreptolysin O test
latex, as a tube dilution procedure, 209
rapid dilution technic, 538
automated treponemal fluorescent antibody test for syphilis
adaption of incident light, 395
evaluation, 391
viral antigens in cell culture systems, 820

Original Articles—*Continued*

Serratia species, new test to differentiate from enterobacter, 241
Serum
albumin, "new" slow-moving alloalbumin, albumin Cartago, 247
alkaline phosphatase
examination of isoenzymes by electrophoresis, 52
transphosphorylation, 167
amylase, semiautomated saccharogenic method of assay, 497
antichymotrypsin, pancreatic enzyme inhibitor, 121
antistreptolysin O determination by sheep cell agglutination, 598
antitrypsin, pancreatic enzyme inhibitor, 121
cholesterol, low, associated with greenish-blue granular marrow histiocytes, 103
insulin levels of patients undergoing chronic hemodialysis, 320
protein
fractions demonstrated by two-dimensional polyacrylamide electrophoresis, 173
immunoelectrophoresis on cellulose acetate membranes, 326
transferrin and *Staphylococcus aureus* in Kwashiorkor, 587
zinc, concentration determined by atomic absorption spectrophotometry, 506
Sickle cell disease, hemoglobin test to differentiate cell types, 467
Skin
involvement in malignant histiocytosis with eosinophilia, 438
pyoderma gangrenosum, sideroblastic anemia associated with cytogenetic aberrations of bone marrow cells, 348
sporotrichosis, 23
topical chemotherapy for malignancy, 118
Sporotrichum schenckii, occurring in skin, 23
Stain
acridine orange for automated differential leukocyte counts, 95
for systemic fungi in tissue, 27
PVA-trichrome, for cytologic examination of feces, 387
quinocrine dihydrochloride, nuclear sex identification in human tissue, 425
simple fixation-decalcification and iron staining technic for bone marrow specimens, 373
Staphylococci species
evaluation of 2%-LSM medium for isolation and identification, 236
test to differentiate pathogenic from nonpathogenic, 241
Staphylococcus aureus, and transferrin in Kwashiorkor, 587
Staphylococcus, staph-strip coagulase test, 531
Statistics, SD unit system for standardized reporting and interpretation of laboratory data, 517
Stein-Leventhal syndrome, ovarian edema and virilization, 545, 546
Streptococcus hemolyticus, selective media for isolation, 228
Syndrome
Down's anicteric hepatitis and Australia antigen in patients, 2
Dubin-Johnson, electron microscopic observation of hepatic pigment, 306
Stein-Leventhal, ovarian edema and virilization, 545, 546
Turner's cytogenetic correlation, 449
Syphilis
automated treponemal fluorescent antibody test
adaptation of incident light, 395
evaluation, 391

T

Tay-Sachs disease, ultrastructural alteration in endocrine glands, 557
Teratoma, ovarian, with alpha fetoprotein in serum and ascitic fluid, 511
Test, screening, isolation of viruses from a wide spectrum of clinical specimens, 188
Thromboplastin, measurement of performance against reference plasma, 80
Thromboplastin time, partial, and Factor VIII therapy, 478
Thyroid, psammoma bodies in diffuse toxic goiter, 551
Tissue culture, laboratory diagnosis of viral infections, 820
Transferrin, serum, and *Staphylococcus aureus* in Kwashiorkor, 587
Transphosphorylation by human alkaline phosphatase, 167
Turner's syndrome, cytogenetic correlation, 449

U

Urea nitrogen, determination using automatic clinical analyzer, 643
Uremia
alteration of platelet adhesion to glass in vascular disorders, 611
serum insulin levels of patients undergoing chronic hemodialysis, 320
Urine
amino acid in workers in lead and cadmium industries, 635
effect of aspirin on assay of homovanillic acid, 324

Original Articles—*Continued*

identification of biotransformed drugs of abuse, 43
interference contrast microscopy for identification of sediment, 316
Uterus
early immunologic diagnosis and prognosis of carcinoma, 715
endometrium, morphologically variant types of adenocarcinoma, 562

V

Vibrio parahemolyticus, transport medium, 33
Virilization, and ovarian edema, 545, 546
Virology
adenoviruses, characteristics and laboratory diagnosis, 771
advances in diagnostic procedures, 814
cytopathogenicity of poliovirus, 846
enteroviruses, 751
herpesviruses, recent studies, 783
immunofluorescent technic for diagnosis of viral infections, 829
laboratory diagnosis
of arboviruses, 762
of myxoviruses, 777
of rabies and postexposure treatment, 794
of rubella and measles (rubeola), 803
of viral infections, patients and the physician, 733
of viral infections, 731, 733, 737
recent advances, 835
rates of isolation from a wide spectrum of clinical specimens, 188
tissue culture in laboratory diagnosis of viral infections, 820
Virus
adeno, characteristics and laboratory diagnosis, 771
advances in diagnostic procedures, 814
arbo, laboratory diagnosis, 762
entero, 751
herpes, recent studies, 783
laboratory diagnosis of infections, 737
myxo, laboratory diagnosis, 777
polio, cytopathogenicity, 846
rate of isolation from wide spectrum of clinical specimens, 188

W

Ward Burdick Award Address, 699

Y

Yeasts, effect of gentamicin on growth, 30

Z

Zinc, serum, determination by atomic absorption spectrophotometry, 506

In Memoriam

Callahan, William P., Jr., 126
Crane, Jackson Temple, 254
Dunlop, Josephine Nachtrieb, 127
Jarrett, William A., 128
Kau, Ling Seong, 423
Schultz, Edwin William, 129
Smyth, Duncan Campbell, 549
Tannenberg, Joseph, 130

Abstracts of Papers, 256

Books Received, 137, 695

Book Reviews, 131, 550, 694, 848

Errata, 122, 573, 750

Notices, 32, 255, 481, 548

Letters to the Editor

Standardization of the one-stage prothrombin time test for the control of anticoagulant therapy: the availability and use of thromboplastin reference preparations, 117
Distribution of topically applied compounds in relation to therapy of skin cancer, 118
Pancreatic enzyme inhibitors, 121
Dr. Maneche's reply, 121
Concentration technics for intestinal parasites, 122
Reply from Mr. Baughn and Dr. Morales, 123
Rapid test for sickle cell hemoglobin, 123
Comments from the Board of Editors, 124
Albumin cartago: a "new" slow-moving alloalbumin, 247
Evaluation of the mononucleosis spot test in lymphomas, 251
Importance of pre-albumin, alpha$_1$, alpha$_2$, and tau fractions in cerebrospinal fluid, 251
Dr. Sherwin's reply, 252
Reaction between concanavallin A and the Australia antigen, 253
Warming blood to correct erroneous Model S Coulter Counter values due to cold agglutinins, 421
Reply, 422
Virilizing syndrome and ovarian edema, 545
Dr. Roth's reply, 546
Linear blood films, 693

Single issue price: $3.00.

TABLE OF CONTENTS

JANUARY TO JUNE 1972

Number 1, January 1972

Photograph. William D. Dolan, M.D., President, American Society of Clinical Pathologists, 1971–72 1

Persistent Anicteric Hepatitis with Australia Antigen in Patients with Down's Syndrome. ALTON I. SUTNICK, W. THOMAS LONDON, BARUCH S. BLUMBERG, AND BETTY JANE S. GERSTLEY 2

Primary Cutaneous Cryptococcosis: Review and Morphologic Study. ROBERT C. NOBLE AND LUIS F. FAJARDO 13

Cutaneous Sporotrichosis: Recent Appearance in Northern Virginia. CHOONG H. PARK, CAROL L. GREER, AND C. BARRIE COOK 23

A New Stain for Systemic Fungi in Tissue. JACOB H. SWARTZ, THEODORE F. MEDREK, AND STANLEY J. ROBBOY 27

Effect of Gentamicin on Growth of Yeasts, Yeast-like Organisms, and *Aspergillus fumigatus*. C. TERRENCE DOLAN 30

Cary-Blair, a Transport Medium for *Vibrio parahemolyticus*. DAVID A. NEUMANN, MICHAEL W. BENENSON, EDWARD HUBSTER, AND NGUYEN THI NHU TUAN 33

Pyocine Typing of *Pseudomonas aeruginosa:* Clinical and Epidemiologic Aspects. MARGARET G. HECKMAN, JANICE B. BABCOCK, AND HAROLD D. ROSE 35

Confirmed Identification of Biotransformed Drugs of Abuse in Urine. MICHAEL M. BADEN, NALINI N. VALANJU, SHIV K. VERMA, AND SHALINI N. VALANJU 43

Normal Serum Alkaline Phosphatase Isoenzymes Examined by Acrylamide and Starch Gel Electrophoresis and by Isoenzyme Analysis Using Organ-specific Inhibitors. SIDNEY GREEN, FREDERICK CANTOR, NORMA R. INGLIS, AND WILLIAM H. FISHMAN 52

The Placental Isoenzyme of Alkaline Phosphatase in Sera of Normal Pregnancy. WILLIAM H. FISHMAN, WADI A. BARDAWIL, HALIM G. HABIB, CLAIRE L. ANSTISS, AND SIDNEY GREEN 65

An Ultramicro Dilutor and Its Applications in Clinical Chemistry. GEORGE W. H. BAILEY AND KATHLEEN STEVENS SMALL 75

Standardization of the Therapeutic Range for Oral Anticoagulants Based on Standard Reference Plasmas. JOHN B. MIALE AND JESSIE W. KENT 80

Evaluation of Single Radial Immunodiffusion for Quantitation of Plasma Fibrinogen. G. M. BRITTIN, H. RAFINIA, D. RAVAL, M. WERNER, AND B. BROWN 89

Preliminary Evaluation of Acridine Orange as a Vital Stain for Automated Differential Leukocyte Counts. M. R. MELAMED, L. R. ADAMS, A. ZIMRING, J. GEORGE MURNICK, AND K. MAYER 95

Greenish-blue Granular Marrow Histiocytes Associated with Low Serum Cholesterol. RICHARD MARANOFF, FRANKLIN K. FITE, AND ABRAHAM M. FRUMIN 103

Use of a Desk-top Computer as a Decision Maker for Exchange Transfusion of Newborns. THOMAS V. DI SILVIO 106

An Example of Anti-Di^a in a Multitransfused Man. MALCOLM L. BECK, JANET DIXON, AND HENRY D. APPELMAN 113

Letters to the Editor:

Standardization of the One-stage Prothrombin Time Test for the Control of Anticoagulant Therapy: The Availability and Use of Thromboplastin Reference Preparations. ROSEMARY BIGGS AND D. R. BANGHAM 117

Distribution of Topically Applied Compounds in Relation to Therapy of Skin Cancer. ALFRED MARSHAK 118

Pancreatic Enzyme Inhibitors. T. V. DI SILVIO 121

Dr. Maneche's Reply. H. C. MANECHE 121

Concentration Technics for Intestinal Parasites. ROBERT B. BURROWS 122

Reply from Mr. Baughn and Dr. Morales. Robert E. Baughn and Azorides R. Morales .. 123
Rapid Test for Sickle Cell Hemoglobin. E. A. French 123
Comments from the Board of Editors. L. W. Diggs 124
In Memoriams:
Leo F. Bleyer, M.D. Theodore T. Bronk and Harold L. Mamelok 125
Robert T. Bryan, M.D. Ernest E. Tucker 125
William P. Callahan, Jr., M.D. William O. Russell 126
Josephine Nachtrieb Dunlop Joe T. Gilbert 127
William A. Jarrett, M.D. John B. Poore 128
Edwin William Schultz, M.D. Leonard R. Ortega 129
Joseph Tannenberg, M.D. Theodore T. Bronk 130
Book Reviews. 131
Books Received. 137
News Note. 32
Erratum. 122

Number 2, February 1972

Morphologic Features of Mammary Carcinomas in Women Taking Hormonal Contraceptives. Victor E. Gould, Marianne Wolff, and N. Karle Mottet 139
Pathology Reports and Autopsy Protocols: Confidentiality, Privilege, and Accessibility. Earl F. Rose 144
Visceral Leishmaniasis (Kala-azar) in Iran: A Pathologic and Electron Microscopic Study. Khosrow Daneshbod 156
Transphosphorylation by Human Alkaline Phosphatases. Elias Amador and Jackie Urban 167
High Resolution Two-dimensional Polyacrylamide Electrophoresis of Human Serum Proteins. G. L. Wright, Jr. 173
Rapid Method for Detection of Erythrocyte NADH-Methemoglobin Reductase Deficiency. Lon E. Rogers 186
Rates of Isolation of Viruses from a Wide Spectrum of Clinical Specimens. Ernest C. Herrmann, Jr. 188
Serodiagnosis of Candidal Infections. Claire L. Taschdjian, Philip J. Kozinn, Manuel B. Cuesta, and Evelyne F. Toni 195
A Simplified Hemagglutination Test for Farmer's Lung. Frederick J. Wenzel, Dean A. Emanuel, and Robert L. Gray 206
Latex Antistreptolysin O Test as a Tube Dilution Procedure. Gerhard L. Bach, Ronald Cadotte, Robert A. Wiatr, Maruti Bhorade, and Truman O. Anderson 209
Cultural and Morphologic Findings in Cervical and Mediastinal Lymph Nodes at Necropsy, with Reference to Fungi. David Yu-shen Lai and Jan Schwarz 212
A Single Blood Culture for Confirmation of the Diagnosis of Neonatal Septicemia. Ralph A. Franciosi and Blaise E. Favara 215
A Quantitative Evaluation of Three Blood Culture Systems. Richard Rosner 220
New Selective Media for the Isolation of *Streptococcus hemolyticus*. Yasuzo Nakamizo and Maroto Sato 228
Clinical Evaluation of 2%-LSM Medium for Primary Isolation and Identification of Staphylococci. B. A. Gunn, W. E. Dunkelberg, Jr., and J. R. Creitz 236
A New Test to Differentiate Serratia from Enterobacter. Paul L. Wolf, Elisabeth von der Muehll, and Margaret Ludwick 241
Problems in the Use of the *in vitro* Toxigenicity Test for *Corynebacterium diphtheriae*. Susan T. Bickham and Wallis L. Jones 244
Letters to the Editor:
Albumin Cartago: A "New" Slow-moving Alloalbumin. Thomas J. Lau, F. William Sunderman, Jr., Lowell R. Weitkamp, S. S. Agarwall, Alton I. Sutnick, Baruch S. Blumberg, and R. Briceno Carrillo de Jimenez 247
Evaluation of the Mononucleosis Spot Test in Lymphomas. Robert G. Schmitt 251

Importance of Pre-albumin, Alpha$_1$, Alpha$_2$, and Tau Fractions in Cerebrospinal Fluid. WALTER E. HORDYNSKY 251
Dr. Sherwin's Reply. RICHARD M. SHERWIN 252
Reaction between Concanavalin A and the Australia Antigen. LEO P. CAWLEY 253
In Memoriam.
Jackson Temple Crane, M.D. LEONARD R. ORTEGA 254
News and Notices. 255
Abstracts of Papers. Scientific Sessions of the Annual Meeting of the American Society of Clinical Pathologists, October 22–30, 1971. 256

Number 3, March 1972

Anaplastic Parotid Carcinoma ("Malignant Lymphoepithelial Lesion") in Seven Alaskan Natives. J. BRADLEY ARTHAUD 275
Idiopathic Adrenal Hypoplasia in Children. BLAISE E. FAVARA, RALPH A. FRANCIOSI, AND VINCENT MILES 287
The Occurence of Psammoma Bodies in Papillary Adenocarcinoma of the Lung. DAVID H. UNTERMAN AND I. M. REINGOLD 297
Plant Cells Resembling Tumor Cells in Routine Cytology. ERNA AVRIN, EUGENE MARQUET, RUTH SCHWARZ, AND HAROLD SOBEL 303
The Dubin-Johnson Syndrome: Electron Microscopic Observation of Hepatic Pigment—A Case Study. NOBUHISA BABA AND RICHARD D. RUPPERT 306
Endometriosis of the Lung: Report of a Case. DIETER ASSOR 311
Interference Contrast Microscopy for Identification of Urinary Sediments. MERYL H. HABER 316
Serum Insulin Levels of "Diabetic" and "Non-diabetic" Patients on Chronic Hemodialysis. A. B. GLASSMAN 320
Effect of Aspirin on the Assay of Homovanillic Acid in Urine. ROBERT HOELDTKE 324
Immunoelectrophoresis on Cellulose Acetate Membranes. HEINZ G. SCHWARTZ 326
Pitfalls of the Microtiter System for Serial Dilutions and Standardization Using Radioiodinated Albumin. HERBERT A. COOPER, E. J. WALTER BOWIE, AND CHARLES A. OWEN, JR. 332
Quantitation of Platelet Aggregation in Myeloproliferative Disorders. JEAN A. NEEMEH, E. J. WALTER BOWIE, JOHN H. THOMPSON, JR., PAUL DIDISHEIM, AND CHARLES A. OWEN, JR. 336
Sideroblastic Anemia Associated with Cytogenetic Aberrations of Bone Marrow Cells. JOSEPH R. ABRAHAMSON AND THOMAS S. EDGINGTON 348
A Rapid Simplified Prothrombin Assay. THOMAS F. ZUCK, JANE M. RAYMOND, AND WILLIAM R. DWYRE 352
Fibrinolytic Activity in Acute Myocardial Infarction. RODGER L. BICK, ROBERT C. BISHOP, AND EDWARD S. SHANBROM 359
Deficiency of Fibrin Stabilizing Factor: Report of a Case, Probably Congenital, with Observations on the Effects of Treatment with ε-Aminocaproic Acid and with Prednisone. MARIO STEFANINI, ROBERT L. EWBANK, AND EDMUND G. ANDRACKI 364
Comparison of the Fibrometer System and the Bio/Data Coagulation Analyzer. CAROL SIBLEY AND JACK W. SINGER 369
A Simple Fixation-Decalcification and Iron Staining Technic for Bone Marrow Specimens. FRANK KOVALCHEK 373
Amebic Cellulocutaneous Invasion by *Naegleria aerobia* with Generalized Visceral Lesions after Subcutaneous Inoculation: An Experimental Study in Guinea Pigs. C. G. CULBERTSON, P. W. ENSMINGER, AND W. M. OVERTON 375
A Simple Method for the Cytologic Examination of Diarrheal Stools. SHELDON N. FEINBERG 387
Further Evaluation of an Automated Fluorescent Treponemal Antibody Test for Syphilis. A. BIRRY, M. CALOENESCU, AND S. S. KASATIYA 391
The Use of Incident Light in Immunofluorescence Applied to Syphilis Serology. S. S. KASATIYA AND A. BIRRY 395
Erwinia Species: An Emerging Human Pathogen. EDWARD BOTTONE AND S. STANLEY SCHNEIERSON 400
Blood Cultures Showing Aberrant Forms of Bacteria. VICTOR LORIAN AND ALEXANDER WALUSCHKA 406

Subacute Bacterial Endocarditis Due to *Flavobacterium meningosepticum*. SEYMOUR WERTHAMER AND MATEI WEINER 410
A Computerized System for Clinical Microbiology. GERALD D. VERMEULEN, STEPHEN V. SCHWAB, VIOLA M. YOUNG, AND RICHARD K. C. HSIEH 413
Laboratory Suggestion:
A Simple Modification to Extend Gasket Life and Prevent Leakage on Shaft-driven Centrifugal Pumps. JOHN A. MAPLES 419
Letter to the Editor:
Warming Blood to Correct Erroneous Model S Coulter Counter Values Due to Cold Agglutinins. LOUIS KOMARMY AND MARSHALL G. BARNES 421
Reply. PAUL G. HATTERSLEY, PAUL W. GERARD, VINCENT CAGGIANO, AND DOROTHY R. NASH 422
In Memoriam:
Ling Seong Kau, M.D. HENRY J. CAES 423

Number 4, April 1972

Nuclear Sex Identification in Human Tissues: A Histologic Study Using Quinacrine Fluorescence. JÜRGEN KEGEL AND PATRICK E. CONEN 425
Gynecomastia: Clinicopathologic Study of 351 Cases. GEORGE A. BANNAYAN AND STEVEN I. HAJDU 431
Malignant Histiocytosis with Cutaneous Involvement and Eosinophilia. KUN T. LIAO, JUAN ROSAI, AND KHOSROW DANESHBOD 438
Histopathologic Study with Cytogenetic Correlation in 20 Cases of Gonadal Dysgenesis. HÉCTOR MÁRQUEZ-MONTER, SALVADOR ARMENDARES, LEONORA BUENTELLO, AND JESÚS VILLEGAS 449
Lipid Granulomas of the Bone Marrow. ARKADI M. RYWLIN AND ROLANDO ORTEGA 457
A Modified Procedure for the Detection of Antinuclear Factor Using Human Leukocytes. GLORIA DREESSEN, GUY HAVEN, AND NEIL HALBRIDGE 463
Hemoglobin Crystallization Test to Differentiate Cells with Hb SC and CC Genotype from SS Cells without Electrophoresis. BELA RINGELHANN AND MEHDI KHORSANDI 467
The Polychromatophilic Erythrocyte. AUGUSTINE L. PERROTTA AND CLEMENT A. FINCH 471
The Partial Thromboplastin Time and Factor VIII Therapy. C. JACK BARK AND MARSHALL J. ORLOFF 478
Reproducibility in the Hematology Laboratory: One-stage Prothrombin Times. FRANK P. BOWYER, MILTON STRATOS, PAUL GOLDENFARB, AND ELMER C. HALL 482
Nonspecificity of the Protamine Test for Disseminated Intravascular Coagulation. MICHAEL L. B. YIP, STEPHEN LEE, AND HARRY J. SACKS 487
Neutralization of Lewis Antibodies *in Vivo* and Transfusion of Lewis Incompatible Blood. ALI A. HOSSAINI 489
The Role of Cholinesterase in Secondary Anemia—Experimental Phase. MAYER MILSTOC AND AARON H. WOLFSON 494
A Simplified Semiautomatic Saccharogenic Method for Serum Amylase Assay. WEI T. WU AND MYRTON F. BEELER 497
Determination of Serum Zinc Concentrations in Normal Adult Subjects by Atomic Absorption Spectrophotometry. ROBERT S. PEKAREK, WILLIAM R. BEISEL, PETER J. BARTELLONI, AND KAREN A. BOSTIAN 506
Yolk Sac Carcinoma of the Ovary with Alpha Fetoprotein in Serum and Ascitic Fluid Demonstrated by Immunoosmophoresis. MAURICE BALLAS 511
SD Unit System for Standardized Reporting and Interpretation of Laboratory Data. HERBERT D. GULLICK AND MURIEL K. SCHAUBLE 517
Safety Precautions for Performing Tests for Hepatitis-associated "Australia" Antigen and Antibodies. NATHALIE J. SCHMIDT AND EDWIN H. LENNETTE 526
Evaluation of the Staph-Strip Coagulase Test. DOROTHY BRANSON 531
Laboratory Suggestions:
A Rapid Method for Electrophoresis of Erythrocyte Glucose-6-Phosphate Dehydrogenase on Cellulose Acetate Plates. NANETTE ELLIS AND JACK B. ALPERIN 534

A Stromatolysing and Cyanide Reagent for Use with the Coulter Counter Model S. LEO F. SKINNIDER AND E. MUSCLOW 537
A Rapid Dilution Technic for the ASO Titer. ANTHONY S. FIUMARA 538
Use of a Spectrophotometer Power Supply for Electrophoresis. MARSHALL G. BARNES, LOUIS KOMARMY, AND ROBERT KERSON 540
Engineering Problems Involved in Supporting Disposable Razor Blades as Microtome Knives. DERMOT B. TAYLOR, DANIEL C. PEASE, AND DOLORES PHILLIPS 543
Letters to the Editor:
Virilizing Syndrome and Ovarian Edema. ROBERT FIENBERG 545
Dr. Roth's Reply. LAWRENCE M. ROTH 546
In Memoriam:
Duncan Campbell Smyth, M.D. WILLIAM A. MEISSNER 549
Notices 481, 548
Book Reviews 550

Number 5, May 1972

Psammoma Bodies in Diffuse Toxic Goiter. ARTHUR S. PATCHEFSKY AND WILLIS S. HOCH ... 551
Ultrastructural Alterations of Endocrine Glands in Tay-Sachs Disease. MASAZUMI ADACHI, BRUNO W. VOLK, LARRY SCHNECK, AND RICHARD RELKIN 557
A Study of Endometrial Adenocarcinoma with Emphasis on Morphologically Variant Types. CHARLOTTE T. LIU 562
Morphology of *Onchocerca volvulus*. RONALD C. NEAFIE 574
Transferrin and *Staphylococcus aureus* in Kwashiorkor. HYLTON MCFARLANE, MADE OKU-BADEJO, AND SHUN REDDY 587
Quality Control Testing with the Disk Antibiotic Susceptibility Test of Bauer-Kirby-Sherris-Turck. DONNA J. BLAZEVIC, MARILYN H. KOEPCKE, AND JOHN M. MATSEN 592
Antistreptolysin O Determination by Sheep Cell Agglutination. O. DALE COLLINS, III 598
Intravascular Coagulation Following Injection of Prothrombin Complex. DEMETRIOS C. TRIANTAPHYLLOPOULOS 603
Alteration of Platelet Adhesion to Glass in Vascular Disorders and Certain Other Diseases. REGINALD G. MASON AND DANIEL C. SUMMERLIN 611
The Recognition of Hemolytic Disease in Patients with Portal Cirrhosis. WILLIAM C. SHERWOOD 618
The Clinical Usefulness of Alkaline Phosphatase Isoenzyme Determinations. JAMES WINKELMAN, SPENCER NADLER, JAMES DEMETRIOU, AND VINCENT J. PILEGGI 625
Aminoaciduria in Japanese Workers in the Lead and Cadmium Industries. ROBERT A. GOYER, KENZABURO TSUCHIYA, DANIEL L. LEONARD, AND HIROAKI KAHYO 635
An Automatic Clinical Analyzer: A Critical Evaluation. CARL E. SPEICHER, MOHAMMED E. FETRAT, M. LAWRENCE FISKE, AND JOHN BERNARD HENRY 643
Computer-assisted Spectrophotometric Analysis of Amniotic Fluid in Erythroblastosis Fetalis. R. C. BROWN AND W. J. BECKFIELD 659
Computer Evaluation of Chemistry Values: A Reporting and Diagnostic Aid. RICHARD L. REECE AND RUSSELL K. HOBBIE 664
Organization, Planning, and Results of the Massachusetts Society of Pathologists Regional Quality Control Program. BRADLEY E. COPELAND AND JERALD M. ROSENBAUM 676
A Simple Timer for the AutoAnalyzer Sampler-II and IBM Model 1894 Buffered Sampler–Reader. RONALD L. CECHNER, JAMES J. BARKLOW, JR., AND WILLIAM E. NEELEY 689
Letter to the Editor:
Linear Blood Films. RUBENS ALVES PEQUENO 693
Book Reviews 694
Books Received 697
Erratum 573

Number 6, June 1972

Future Shock—A Present Reality in Pathology. Ward Burdick Award Address. BRADLEY E. COPELAND 699
Early Immunologic Diagnosis and Prognosis of Carcinoma. Philip Levine Award Address. ISRAEL DAVIDSOHN 715

Sixth Annual ASCP Research Symposium

Introduction, Sixth Annual ASCP Research Symposium. Laboratory Diagnosis of Viral Infections: Recent Advances and Their Clinical Application. WILLIAM O. RUSSELL 731
Viral Diagnosis: The Patient and the Physician. LEON DMOCHOWSKI 733
Laboratory Diagnosis of Viral Infections: General Principles. EDWIN H. LENNETTE 737
The Enteroviruses. HERBERT A. WENNER 751
Arboviruses. JORDI CASALS 762
Adenoviruses. HAROLD S. GINSBERG 771
Practical Considerations in the Diagnosis of Myxovirus Infections. FRED M. DAVENPORT AND ARNOLD S. MONTO 777
Recent Studies of the Herpesviruses. ALBERT S. KAPLAN 783
Rabies: Laboratory Diagnosis and Postexposure Treatment. HERALD R. COX 794
The Clinical Application of Laboratory Diagnostic Procedures for Rubella and Measles (Rubeola). HARRY M. MEYER, JR., PAUL D. PARKMAN, AND HOPE E. HOPPS 803
Important Advances in Viral Diagnostic Procedures. JOEL WARREN 814
Tissue Culture in the Laboratory Diagnosis of Viral Infections. NATHALIE J. SCHMIDT 820
Application of the Immunofluorescent Technic to the Study of Pathogenesis and Rapid Diagnosis of Viral Infections. CHIEN LIU AND RIZALINA LLANES-RODAS 829
Panel Discussion: Laboratory Diagnosis of Viral Infections—Recent Advances and Their Clinical Application. MODERATOR, EDWIN H. LENNETTE; JORDI CASALS, HERALD R. COX, CLYDE G. CULBERTSON, FRED M. DAVENPORT, LEON DMOCHOWSKI, HAROLD S. GINSBERG, ALBERT S. KAPLAN, CHIEN LIU, HARRY M. MEYER, JR., NATHALIE J. SCHMIDT, JOEL WARREN, AND HERBERT A. WENNER 835
Early Observations on Cytopathogenicity of Poliovirus. (With Introduction and Conclusion by Clyde G. Culbertson.) JOHN F. ENDERS 846
Book Reviews 848
Erratum 750
Index to Volume 57 849

Index of Issues: July, pp. 1–98; August, pp. 99–230; September, pp. 231–348; October, pp. 349–478; November, pp. 479–606; December, pp. 607–738.

INDEX OF SUBJECTS

Original Articles

A

Abscess, tubo-ovarian, and pregnancy test, 314
Adenosine triphosphatase, and immunofluorescent staining of bile canaliculi in the same sections of liver, 123
Agglutination
  erythrocytes treated with plant lectins, 531
  group B analogue of subgroup A_3, 693
Agglutinins, cold and the Coulter Counter Model S, 599
Alkaline phosphatase, decreased leukocyte in monocytic leukemia, 668
Allergy, simple eosinophilic granulomatous prostatitis, 630
Amniotic fluid, analysis by thin-layer chromatography to evaluate maturity of fetal lungs, 579
Amyloidosis, in nonsecretory plasma cell myeloma, 618
Andersen sampler, used for estimating airborne bacteria, 558
Anemia
  diagnosis of homozygous hemoglobin D disease, 224
  hemolytic, associated with erythrocyte enolase deficiency, 408
  homozygous hemoglobin D disease, 225
  pernicious, ultrastructural study of bone marrow, 1
  Possible link between cholinesterase activity and lipoprotein, 599
  whole blood solubility and centrifugation test for sickle cell hemoglobin, 11
Antibody
  antinuclear, indirect immunofluorescent test, 388
  antiskeletal muscle, 647
  bound to bile canaliculi, 123
  electrophoretic determination of antigen-antibody combinations using a modified Beckman Microzone Cell and agarose coated plates, 66
  indirect fluorescent test for detecting antibodies to cysts of *Pneumocystis carinii* in human sera, 170
  instrument for measuring radial immunodiffusion precipitates, 64
  isoimmune, ABO and Rh, incubated with erythrocytes to increase osmotic fragility, 531
  screening of donors' plasma with the AutoAnalyzer, 698
Anticoagulant factor, interference in performance of lupus erythematosus cell test, 702
Antifibrinogen test, evaluation of methods for detection and quantitation of fibrin-fibrinogen degradation products, 394
Antigen
  association of HL-A5 and lymphomas, 14
  Australia
    detection by immunodiffusion and immunoelectroosmophoresis tests, 317
    electrophoretic determination using a modified Beckman Microzone Cell and agarose coated plates, 66
    in sera of patients with hepatocellular carcinoma, 329
    nonspecific precipitin reactions in immunodiffusion due to protamine sulfate, 303
  instrument for measuring radial immunodiffusion precipitates, 64
  latex test for cryptococcosis, 358
Antinuclear antibody test, comparison of sensitivity and specificity of different substrates, 388
Antiserum, evaluation for detection of hepatitis-associated antigen, 317
Apparatus
  AutoAnalyzer
    dual quality control system, 37
    screening for antibodies using donors' plasma, 698
  comparison of Andersen sampler and gravity settling culture plate for estimating airborne bacteria, 558
  Coulter Counter
    computer calculation of electronic platelet counts, 33
    Model S and cold agglutinins, 599
  electronic method for quantitation of bleeding time, 255
  electrophoretic, for rapid hemoglobin screening, 275
  Fibrometer, compared with Lancer Coagulyzer for determination of prothrombin, 687
  Hycel Mark X, evaluation of serum enzyme determinations, 567
  instrument for measuring radial immunodiffusion, 64

Lancer Coagulyzer, compared with Fibrometer for determination of prothrombin, 687
microhematocrit, used for recovery of *Borrelia duttonii* from blood, 165
modification of Beckman Microzone Cell for performance of immunoosmophoresis on agarose coated plates, 66
sample port modification of the I.L. Model 182 CO-Oximeter, 68
simple sedimentation chamber adaptable to the laboratory centrifuge, 590
simultaneous use of multiple Fibrometers for assays, 272
Asbestos, relationship between environmental occupational exposure and malignant mesotheliomas, 250
Ascorbic acid, cause of false negative tests for urinary glucose, 297
Aspergillosis, species identification, 554
Aspergillus flavus, identification in man, 554
Aspergillus fumigatus, identification in man, 554
Aspergillus glaucus, identification in man, 554
AutoAnalyzer
dual quality control system, 37
screening for antibodies using donors' plasma, 698
Automation, laboratory data analysis system, 177, 182, 188, 201, 208, 216
Autopsy, removal of the spinal cord in continuity with the brain, 596

B

Bacteria, anaerobic, evaluation of media and reagents for indole-spot tests, 335
Bacteriology
chopped-meat medium tube filler, 597
comparison of Andersen sampler and gravity settling culture plate, 558
growth of Pseudomonas in blood cultures, 823
isolation and microbiologic differentiation of *Klebsiella rhinoscleromatis* and *Klebsiella ozaenae*, 550
urine culture method using internally coated plastic pipettes, 371
Bacteriuria, simple quantitative culture method, 371
Bence Jones protein, absent in nonsecretory plasma cell myeloma, 618
Blastomyces dermatitidis, evaluation of media for growth, 339
Bleomycin therapy, interstitial pneumonitis associated with, 501
Blood
cryofibrinogenemia, 524
effect of sample collection on measurement of lactate, 153
loss, determined from standardized skin punctures, 255
microhematocrit used for recovery of *Borrelia duttonii*, 165
Polybrene neutralization as a rapid means of monitoring blood heparin levels, 26
sample port modification of the I.L. Model 182 CO-Oximeter, 68
solubility and centrifugation test for sickle cell hemoglobin, 11
ultrastructural study of bone marrow in pernicious anemia, 1
whole blood parameters, 535
Blood banking
biochemical sequelae of RhoGAM inoculation, 326
group B analogue of subgroup A_3, 693
quality control, whole blood parameters, 535
screening for antibodies with AutoAnalyzer using donors' plasma, 698
variations in preservation due to processing, 545
Blood culture, growth of Pseudomonas, 723
Blood preservation, variations due to processing, 545
Blood volume, analysis of methods for prediction of normal erythrocyte mass, 260
Bone, in sickle cell disease, 518
Bone marrow
nonsecretory plasma cell myeloma, 618
ultrastructural study in pernicious anemia, 1
Borrelia duttonii, recovered from blood using microhematocrit technic, 165
Brain
normal pressure hydrocephalus, 58
removal in continuity with the spinal cord at autopsy, 596
Breast
granulomatous mastitis simulating carcinoma, 642
tubular carcinoma, 231
Broncholithiasis, etiology of pigmented scars, 654
Bronchus, etiology of pigmented scars in bronchial mucosa, 654

C

Calcium
colorimetric determination with methylthymol blue, 376
serum, automated analyses corrected for dialysis effects, 707
Carboxyhemoglobin, sample port modification of the I.L. Model 182 CO-Oximeter, 68
Carcinoma
adenoid cystic (cylindromatous) of the uterine cervix, 51
comparative study of endometrial jet-washing technic and endometrial biopsy, 118

hepatocellular, Australia antigen and alpha fetoglobulin in sera, 329
tubular of the breast, 231
Cerebrospinal fluid
diagnostic value of immunodiffusion in multiple sclerosis, 145
examination by sedimentation chamber method using centrifugation step, 590
Cervix, adenoid cystic (cylindromatous) carcinoma, 51
Chemistry
automated serum calcium analyses corrected for dialysis effects, 707
clinical, residency training, review of training objectives, 140
colorimetric determination of calcium with methylthymol blue, 376
effect of sample collection on measurement of lactate in whole blood, 153
reporting of triglyceride in millimoles per liter of sample, 223
serum lactate dehydrogenase assays, 475
survey, interlaboratory comparison, 281
uric acid standards, 224
Cholinesterase, possible link with lipoprotein, 599
Chorioadenoma destruens, concept of benign metastasizing hydatidiform moles, 111
Choriocarcinoma, metastasizing hydatidiform moles, benign, 111
Chromatography
gas-liquid, analysis of massive crystalluria, 583
thin-layer
analysis of amniotic fluid to evaluate maturity of fetal lungs, 579
analysis of massive crystalluria, 583
Chromoblastomycosis, primary of the nasal septum, 365
Coagulation
diffuse intravascular
counterelectrophoresis test for fibrinogen, 400
evaluation of methods for detection and quantitation of fibrin-fibrinogen degradation products, 394
effect of heparin on activated partial thromboplastin time, 405
electronic method for quantitation of bleeding time, 255
plasma protamine paracoagulation test, 675
Polybrene neutralization as a rapid means of monitoring blood levels of heparin, 26
simultaneous use of multiple fibrometers for assays, 272
standardized test of platelet adhesiveness, 422
use of laboratory determination in the control of streptokinase therapy, 415
Coccidioides immitis
evaluation of media for growth, 339
pulmonary infection, 489
Coccidioidomycosis, pulmonary, 489
Colorimetry, for determination of calcium using methylthymol blue, 376
Collagen disease
picornavirus-like structures in acute dermatomyositis, 245
skin window technic for demonstration of lupus erythematosus cells, 702
College of American Pathologists survey, chemistry, interlaboratory comparison, 281
Computer
desk-top, calculation of electronic platelet counts, 33
laboratory data analysis, 177, 182, 188, 201, 208, 216
Coulter Counter, Model S and cold agglutinins, 599
Counterelectrophoresis test for molecules immunologically similar to fibrinogen, 400
Cryofibrinogenemia, incidence and clinical correlations, 524
Cryptococcus neoformans
evaluation of media for growth, 339
latex antigen test, 358
Crystals
ampicillin in urine, 220
Primidone in urine, from overdose, 583
Culture, urine, simple quantitative method using internally coated plastic pipettes, 371
Culture plate, gravity settling, used for estimating airborne bacteria, 558
Cytology
examination of cancer cells in body fluids to determine primary site, 479
exfoliative, 475
sedimentation chamber method using centrifugation step, 590
Cytomegalovirus, congenital infection in placenta, 445

D

Dactylitis, sickle cell, 518
Deoxyribonucleic acid, serum levels in patients with malignant disease, 601
Dermatomyositis, picornavirus-like structures observed by electron microscopy, 245
Dialysis, corrections of effects on automated serum calcium analyses, 707
Diphenylamine, reaction with deoxypentose to estimate deoxyribonucleic acid, 601
Donor blood, parameters for quality control, 535
Downey cells in infectious mononucleosis, 607
Dysgerminoma, ovarian, ultrastructure, 458

E

Echovirus 3, epidemic of meningoencephalitis, 349
Effusions, examination of cancer cells to determine primary site, 479
Electron microscopy
  adenoid cystic (cylindromatous) carcinoma of the uterine cervix, 51
  myofiber degeneration in skeletal muscle, 239
  Niemann-Pick disease, 450
  nonsecretory plasma cell myeloma, 618
  nuclear lobulations and cytoplasmic fibrils in leukemic plasma cells, 159
  ovarian dysgerminoma, 458
  picornavirus-like structures observed in acute dermatomyositis, 245
  primary malignant melanoma of the esophagus, 659
  study of bone marrow in pernicious anemia, 1
  ultrastructural features of mycosis fungoides, 99
Electrophoresis
  cellulose acetate, separation of globin chains, 428
  evaluation of various antisera and gels for detection of hepatitis-associated antigen, 317
  immuno, of serum proteins on cellulose acetate, 300
  modification of the Beckman Microzone Cell for performance of immunoosmophoresis on agarose coated plates, 66
  simple method for rapid hemoglobin screening, 275
Endometrium, comparative study of jet-washing technic and biopsy, 118
Enolase deficiency, exacerbated by ingestion of nitrofurantoin, 408
Enterovirus, isolation in a hospital laboratory, 349
Enzyme
  adenosine triphosphatase staining of bile canaliculi, 123
  decreased leukocyte alkaline phosphatase in monocytic leukemia, 668
  effect of sample collection on measurement of lactate in whole blood, 153
  enolase deficiency exacerbated by ingestion of nitrofurantoin, 408
  evaluation of determinations by manual and multichannel analyzer methods, 567
  lactate dehydrogenase assays, 475
Epoxy resin, rapid preparation of sections of renal biopsies, 469
Erythroblastosis, biochemical sequelae of RhoGAM inoculation, 326
Erythrocyte
  cold agglutinins and the Coulter Counter Model S, 599
  increased osmotic fragility when treated with plant lectins, 531
  enolase deficiency exacerbated by ingestion of nitrofurantoin, 408
  possible link between cholinesterase activity and lipoprotein, 599
  radioisotopic survival studies, 71
  ultrastructural study of bone marrow in pernicious anemia, 1
Erythrocyte mass, analysis of methods of measurements, 260
Esophagus, primary malignant melanoma, 659
Ethylene diamine-tetraacetate, automated serum calcium analyses corrected for dialysis effects, 707

F

Favism, increased osmotic fragility of human erythrocytes, 531
Ferruginous bodies, method for extracting from sputum and pulmonary tissue, 250
Fetoglobulin, alpha, in sera of patients with hepatocellular carcinoma, 329
Fibrin-fibrinogen degradation products
  evaluation of methods for detection and quantitation, 394
  measurement for diagnosis of intravascular coagulation problems, 400
  use of laboratory determinations in the control of streptokinase therapy, 415
Fibrinogen complex, incidence and clinical correlations of cryofibrinogenemia, 524
Fibrometer for coagulation factor and heparin assays, 272
Fungus
  evaluation of media for growth, 339
  latex-cryptococcal antigen test, 358
  primary chromoblastomycosis of the nasal septum, 365
  pulmonary coccidioidomycosis, 489

G

Globin chains, separation by rapid cellulose acetate electrophoresis, 428
Glomeruli isolated from mammalian kidneys by graded sieving, 135
Glucose, false negative tests in presence of ascorbic acid in urine, 297
Granuloma
  of breast, simulating carcinoma, 642
  of prostate, eosinophilic variety, 630
Guaiacols in urine of patients with neuroblastoma, 383

H

Heart
congenital disease, polysplenia, and Howell-Jolly bodies, 127
mycoplasma pneumonia with rheumatic disease, 343
Hemagglutination immunoinhibition system
diagnosis of intravascular coagulation problems, 400
evaluation of methods for detection and quantitation of fibrin-fibrinogen degradation products, 394
Hematology
computer calculation of electronic platelet counts, 33
effect of heparin on activated partial thromboplastin time, 405
nonsecretory plasma cell myeloma, 618
Polybrene neutralization as a rapid means of monitoring blood levels of heparin, 26
radioisotopic erythrocyte survival studies, 71
ultrastructural study of bone marrow in pernicious anemia, 1
whole blood solubility and centrifugation test for sickle cell hemoglobin, 11
Hematoxylin bodies, presence in patients with disseminated lupus erythematosus, 702
Hemoglobin
cellulose acetate electrophoresis, 428
D, homozygous, 224, 225
S, whole blood solubility and centrifugation test, 11
sample port modification of the I.L. Model 182 CO-Oximeter, 68
SF, dactylitis, 518
simple electrophoretic apparatus for rapid screening, 275
Hemophilia, standardized test of platelet adhesiveness, 422
Heparin
assay, simultaneous use of multiple fibrometers, 272
effect on activated thromboplastin time, 405
Polybrene neutralization as a rapid means of monitoring blood levels of heparin, 26
undiluted *Limulus polyphemus* serum, nonspecific precipitin pattern in immunodiffusion, 303
Hepatitis
chronic, reaction of sera with bile canaliculi, 123
electrophoretic determination of Australia antigen using a modified Beckman Microzone Cell and agarose coated plates, 66
Histocompatibility, quantitative evaluation of the uni- and bidirectional reactions of mixed leukocyte cultures, 17
Histologic technic, epoxy resin-embedded sections of renal biopsies, 469
Histoplasma capsulatum
etiology of pigmented scars in the bronchial mucosa, 654
evaluation of media for growth, 339
Hodgkin's disease
association of leukocyte antigen HL-A5 confirmed, 14
"Reed-Sternberg cells" in infectious mononucleosis, 607
Howell-Jolly bodies, polysplenia with severe congenital heart disease, 127
Hycel Mark X, evaluation of serum enzyme determinations, 567
Hydatidiform mole, concept of benign metastasizing, 111
Hydrocephalus, normal pressure, histologic study, 58
Hyperfibrinogenemia associated with cryofibrinogenemia and elevated levels of alpha-1 antitrypsin, 524
Hypogammaglobulinemia in nonsecretory plasma cell myeloma, 618

I

Immunity, cellular hypersensitivity to skeletal muscle in myasthenia gravis, 647
Immunoassay
evaluation of methods for detection and quantitation of fibrin-fibrinogen degradation products, 394
hemagglutination inhibition, diagnosis of intravascular coagulation problems, 400
Immunodiffusion
evaluation of various antisera and gels for detection of hepatitis-associated antigen, 317
radial
instrument for measuring, 64
of cerebrospinal fluid, 145
relationship of protamine sulfate to nonspecific precipitin reactions, 303
Immunoelectroosmophoresis, evaluation of various antisera and gels for detection of hepatitis-associated antigen, 317
Immunoelectrophoresis of serum proteins on cellulose acetate, 300
Immunofluorescence
antinuclear antibody tests, 388
for diagnosis of mycoplasma pneumonia, 343
indirect, screening test for detecting antibodies to *Pneumocystis carinii* in human serum, 170
Immunofluorescent and enzymatic staining of bile canaliculi in the same sections of liver, 123

Immunoglobulins, spinal fluid, diagnostic value in multiple sclerosis, 145
Immunohematology
biochemical sequelae of RhoGAM inoculation, 326
group B analogue of subgroup A_3, 693
increased osmotic fragility of erythrocytes treated with plant lectins, 531
screening for antibodies with AutoAnalyzer using donors' plasma, 698
Immunology, quantitative evaluation of the uni- and bidirectional reactions of mixed leukocyte cultures, 17
Immunoosmophoresis, determination of Australia antigen and antibody-antigen combination using modified Beckman Microzone Cell and agarose coated plates, 66
Imprint technic, lymph node, 431
Inclusions, intranuclear seen in mycosis fungoides, 99
Indole-spot tests, evaluation of media and reagents, 335
Infection, airborne hospital, estimation of bacteria using Andersen sampler and gravity settling culture plates, 558
Infectious mononucleosis, "Reed-Sternberg cells" in, 607
Intravascular clotting, plasma protamine paracoagulation test, 675
Iron, method for extracting ferruginous bodies from sputum and pulmonary tissue, 250

J

Jet-washer, comparative study, with endometrial biopsy, 118
Joints, pigmented nodular synovitis, 511

K

Kidney
ampicillin crystalluria, 220
biopsy, epoxy resin-embedded sections, 469
mammalian, isolation of glomeruli by graded sieving, 135
Klebsiella ozaenae, isolation and microbiologic differentiation from *Klebsiella rhinoscleromatis*, 550
Klebsiella rhinoscleromatis, isolation and microbiologic differentiation from *Klebsiella ozaenae*, 550

L

Laboratory, dual quality control system, 37
Laboratory data, automated analysis system, 177, 182, 188, 201, 208, 216
Lactic acid, effect of sample collection on measurement in whole blood, 153
Latex antigen test for cryptococcal infection, 358
Leiomyosarcoma of the prostate gland, 43
Leukemia
monocytic, decreased alkaline phosphatase, 668
nuclear lobulation and cytoplasmic fibrils in plasma cells, 159
Leukocyte
antigen HL-A5 association with lymphomas, 14
decreased alkaline phosphatase in monocytic leukemia, 668
Leukocyte cultures, factors affecting the quantitative evaluation of the uni- and bidirectional reactions of mixed cultures, 17
Limulus polyphenus, undiluted serum, nonspecific precipitin reactions in immunodiffusion, 303
Lipidosis, childhood variant of Niemann-Pick disease, 450
Lipoprotein
of erythrocyte membrane, possible link with cholinesterase activity, 599
serum, instrument for measuring radial immunodiffusion, 64
Liver
carcinoma, Australia antigen and alpha-fetoglobulin in serum, 329
immunofluorescent and enzymatic staining of bile canaliculi in the same section, 123
Lung
coccidioidomycosis, 489
fetal, evaluation of maturity by analysis of amniotic fluid, 579
interstitial pneumonitis associated with Bleomycin therapy, 501
isomerism with polysplenia and severe congenital heart disease, 127
method for extracting ferruginous bodies from sputum and pulmonary tissue, 250
mycoplasma pneumonia with rheumatic heart disease, 343
Lupus erythematosus
disseminated, use of skin window technic to demonstrate cells, 702
systemic, indirect immunofluorescent antinuclear antibody tests, 388
Lymph node
imprint technic, modification, 431
Niemann-Pick disease in, 450
perforation into bronchial mucosa, 654
"Reed-Sternberg cells" in infectious mononucleosis, 607
Lymphoma
association of antigen HL-A5, 14
of the prostate gland, 43

M

Mastitis, granulomatous, simulating carcinoma, 642
Media, bacteriologic, evaluation
  for growth of selected pathogenic fungi and *Nocardia asteroides*, 339
  of indole-spot tests, 335
Medium, chopped-meat tube filler, 597
Melanoma, malignant, of esophagus, 659
Methylthymol blue, colorimetric determination of calcium, 376
Microhematocrit technic used for the recovery of *Borrelia duttonii* from the blood, 165
Minutes of Annual Meeting, October 28, 1971, 81
Multiple myeloma, nuclear lobulation and cytoplasmic fibrils in circulating plasma cells, 159
Multiple sclerosis, diagnosis using radial immunodiffusion of spinal fluid, 145
Muscle
  cellular hypersensitivity in myasthenia gravis, 647
  skeletal, myofiber degeneration observed by electron microscopy, 239
Myasthenia gravis, cellular hypersensitivity to skeletal muscle, 647
Mycology
  evaluation of various media for growth of pathogenic fungi and *Nocardia asteroides*, 339
  pulmonary coccidioidomycosis, 489
  species identification of invasive aspergillosis in man, 554
Mycoplasma pneumoniae, pulmonary lesions in a patient with rheumatic heart disease, 343
Mycosis fungoides, ultrastructural features, 99
Myeloma, plasma cell, "nonsecretory," 618
Myofibers, membranous inclusions observed by electron microscopy, 239
Myopathy, myofiber degeneration observed by electron microscopy, 239
Myosin, cellular hypersensitivity to skeletal muscle in myasthenia gravis, 647

N

Nasal septum, primary chromoblastomycosis, 365
Neoplasm
  benign
    gastric mucosal polyps, 434
    metastasizing hydatidiform moles, 111
  malignant
    adenoid cystic (cylindromatous) carcinoma of the uterine cervix, 51
    association of antigen HL-A5 with lymphomas, 14
    comparative study of endometrial jet-washing technic and endometrial biopsy, 118
    examination of cancer cells in body fluids, 479
    hepatocellular carcinoma, Australia antigen and alpha-fetoglobulin in sera, 329
    interstitial pneumonitis associated with Bleomycin therapy, 501
    metastasizing hydatidiform moles, 111
    nuclear lobulation and cytoplasmic fibrils in leukemic plasma cells, 159
    primary malignant melanoma of the esophagus, 659
    sarcoma of the prostate gland, 43
    serum deoxyribonucleic acid levels in patients, 601
    tubular carcinoma of the breast, 231
    ultrastructure
      of mycosis fungoides, 99
      of ovarian dysgerminoma, 458
Neuroblastoma, vanillylmandelic acid and other guaiacols in urine of patients, 383
Neutralization, Polybrene, as rapid means of monitoring blood levels of heparin, 26
Niemann-Pick disease, childhood variant, 450
Nitrofurantoin, cause of exacerbation of enolase deficiency, 408
Nocardia asteroides, evaluation of media for growth, 339

O

Osmophoresis, evaluation of various antisera and gels for detection of hepatitis-associated antigen, 317
Osmotic fragility, erythrocytes, increased by plant lectins, 531
Ovary, ultrastructure of dysgerminoma, 458
Oxyhemoglobin, sample port modification of the I.L. Model 182 CO-Oximeter, 68

P

Picornavirus observed in acute dermatomyositis, 245
Phialophora verrucosa, primary chromoblastomycosis of the nasal septum, 365
Phospholipids, analysis of amniotic fluid to evaluate maturity of fetal lungs, 579
Placenta
  concept of benign metastasizing hydatidiform moles, 111
  congenital cytomegalovirus infection, 445
Plant lectins, increased osmotic fragility of erythrocytes, 531
Plasma, effect of heparin on the activated partial thromboplastin time, 405
Plasma cell, nuclear lobulation and cytoplasmic fibrils seen in multiple myeloma and plasma cell leukemia, 159
Plasma paracoagulation test, clinical and laboratory evaluation, 675
Platelet adhesiveness, standardized test, 422
Platelets, computer calculation of electron counts, 33

Pneumocystis carinii, indirect immunofluorescence screening test for detecting antibodies to cysts, 170
Pneumonitis, interstitial, associated with Bleomycin therapy, 501
Polyps, gastric mucosal, 434
Precipitin test, relationship of protamine sulfate to nonspecific reactions in immunodiffusion, 303
Pregnancy test
  comparative study of five immunologic, 305
  false positive with tubo-ovarian abscess, 314
Primidone intoxication, analysis of massive crystalluria, 583
Prostate gland, sarcoma of, 43
Protamine, plasma paracoagulation test, 675
Protamine-prothrombin time, use in control of streptokinase therapy, 415
Protamine sulfate, relationship to nonspecific precipitin reactions in immunodiffusion, 303
Proteins, serum, immunoelectrophoresis on cellulose acetate, 300
Prostate, granulomatous prostatitis with emphasis on eosinophilic variety, 630
Prothrombin, evaluation of photoelectric automatic analyzer, 687
Prothrombin time, use in control of streptokinase therapy, 415
Pseudomonas, growth in blood cultures, 723
Pseudomonas aeruginosa, growth in blood cultures, 723
Pseudomonas maltophilia, growth in blood cultures, 723
Pseudomonas stutzeri, growth in blood cultures, 723

Q

Quality control
  blood banking, whole blood parameters, 535
  dual system for large clinical laboratories, 37
  uric acid standards, 224

R

Radioisotope, erythrocyte survival studies, 71
Reed-Sternberg cells
  in infectious mononucleosis, 607
  in patients with mycoplasmal pneumonia, 343
Rhabdomyosarcoma of the prostate gland, 43
Rhinitis, chronic, isolation and microbiologic differentiation of *Klebsiella rhinoscleromatis* and *Klebsiella ozaenae*, 550
Rhinoscleroma, isolation of the causative organism, 550
RhoGAM biochemical sequelae of inoculation in Rh-positive and Rh-negative postpartum women, 326

S

Sarcoma of the prostate gland, 43
Schwannoma, malignant of the prostate gland, 43
Screening test
  endometrial jet-washing technic, 118
  for quaiacols in urine of patients with neuroblastoma, 383
  indirect immunofluorescence for detecting antibodies to cysts of *Pneumocystis carinii*, 170
  plasma protamine paracoagulation test, 675
  whole blood solubility and centrifugation test for sickle cell hemoglobin, 11
Sedimentation chamber adaptable to the laboratory centrifuge, 590
Serology
  indirect immunofluorescence screening test for detecting antibodies to cysts of *Pneumocystis carinii* in human sera, 170
  modification of the Beckman Microzone Cell for performance of immunoosmophoresis on agarose coated plates, 66
Serum
  automated analyses of calcium corrected for dialysis effects, 707
  Cholesterol, dual quality control system for large clinical laboratory, 37
  enzymes, evaluation of determinations by manual and multichannel analyzer methods, 567
  lipoprotein, instrument for measuring radial immunodiffusion, 64
  M-component, absent in "nonsecretory" plasma cell myeloma, 618
  protein, immunoelectrophoresis on cellulose acetate, 300
  thyroxine binding globulin capacity, 718
Sialic acid, deoxyhexose reaction with diphenylamine when added to serum, 601
Sickle cell disease, dactylitis, 518
Situs inversus with polysplenia and severe congenital heart disease, 127
Skin window technic for demonstration of lupus erythematosus cells, 702
Spectroscopy
  infrared, analysis of massive crystalluria, 583
  ultraviolet, analysis of massive crystalluria, 583
Spleen, multilobed with severe congenital heart disease and Howell-Jolly bodies, 127
Spinal cord removal in continuity with the brain at autopsy, 596
Spirochetes, *Borrelia duttonii* recovered from blood using microhematocrit technic, 165
Sporothrix schenckii, evaluation of media for growth, 339
Spot test
  evaluation of media and reagents, 335
  for quaiacols in urine of patients with neuroblastoma, 383

Sputum, ferruginous bodies, method of extracting, 250
Stain
  immunofluorescent and enzymatic staining of bile canaliculi, 123
  Wright-Giemsa, modification for lymph node imprints, 431
Statistics, formulae for normal ranges of erythrocyte mass, 260
Stomach, mucosal polyps, 434
Streptokinase, control of therapy by use of laboratory determinations, 415
Survey, chemistry, interlaboratory comparison, 281
Syndrome
  normal pressure hydrocephalus, 58
  polysplenia with severe congenital heart disease and Howell-Jolly bodies, 127
Synovitis, pigmented nodular, lesions in non-articular locations, 511

T

Teaching, residency training in clinical chemistry, review of behavioral objectives, 140
Tenosynovitis, pigmented villonodular, histologic similarity to pigmented nodular synovitis, 511
Thrombin time, use in control of streptokinase therapy, 415
Thromboplastin time, partial, effect of heparin on, 405
Thyroid, estimate of thyroxine binding globulin capacity, 718
Toxicology, chemical analysis of massive crystalluria following overdose of primidone, 583
Transfusion, variations in preservations of bank blood due to processing, 545
Triglyceride, reporting in millimoles per liter of sample, 223

U

Uric acid standards, 224
Urine
  ampicillin crystals, 220
  culture method using internally coated plastic pipette, 371
  false negative tests for glucose in presence of ascorbic acid, 297
  pregnancy test
    comparative study of five immunologic tests, 305
    false positive with tubo-ovarian abscess, 314
  spot test for vanillylmandelic acid and other guaiacols, 383
Uterus
  adenoid cystic (cylindromatous) carcinoma of the cervix, 51
  comparative study of endometrial jet-washing technic and endometrial biopsy, 118
  concept of benign metastasizing hydatidiform moles, 111

V

Vanillylmandelic acid, spot test for presence in urine, 383
Virology, diagnostic in a hospital laboratory, 349
Virus
  cytomegalo-, congenital infection of placenta, 445
  entero-, diagnosis in a hospital laboratory, 349
  epidemic of echo 3 meningoencephalitis, 349
  picorna-, observed in acute dermatomyositis, 245
Vitamin
  B_{12}, ultrastructural study of bone marrow before and after therapy for pernicious anemia, 1
  C, cause of false negative tests for urinary glucose, 297
von Willebrand's disease, standardized test of platelet adhesiveness, 422

Letters to the Editor

Ampicillin Crystalluria, 220
Millimolar Malady, 223
Uric Acid Standards, 224
  Reply by Doctors Copeland and Aaronson, 224
The Diagnosis of Homozygous Hemoglobin D Disease, 224
  Doctor Jain's Reply, 225
Exfoliative Cytology, 475
Serum LDH Assays, 475
Removal of the Spinal Cord in Continuity with the Brain at Autopsy, 596
Chopped-meat Medium Tube Filler, 597
Possible Link Between Cholinesterase Activity and Lipoprotein, 599
Cold Agglutinins and the Coulter Counter Model S, 599
Serum DNA Levels in Patients with Malignant Disease, 601

In Memoriams

Book Reviews, 229, 476

Errata, 274, 523

Notices, 134, 139, 226, 530, 549, 692

INDEX OF AUTHORS

Aaronson, Arthur G., 224
Abate, Salvatore D., 118
Abildgaard, Charles F., 272
Agliozzo, Carl M., 51
Aikawa, Masamichi, 1
Allerhand, Jona, 550
Almy, Rydia A., 66
Alpert, Laurence I., 647
Amador, Elias, 707
Appelman, Henry D., 434
Arkin, Charles, 314, 524
Arthaud, J. Bradley, 511
Aschenbrand, Joan F., 17
Ashikari, Roy, 231
Axelrod, Judith, 343
Azar, Henry A., 618

Bailey, David N., 583
Barnes, Marshall G., 275, 428
Barnett, Roy N., 281, 567
Becker, Maurice E., 349
Bedrossian, Carlos W. M., 501
Beeler, Myrton F., 140
Belliveau, Robert R., 405
Beltran, German, 159
Ben-Bassat, M., 245
Benisch, Barry M., 343
Bennett, John E., 554
Benson, Ellis S., 177, 182, 188, 201, 208, 216
Bergeron, John A., 371
Berner, Jerome J., 145
Bouroncle, Bertha A., 17
Bowie, E. J. Walter, 255
Brandon, John M., 400
Briggs, William A., 14
Buhmeyer, K. J., 303
Burke, M. Desmond, 305
Butler, Thorne J., 405

Carstens, Per H. B., 231
Carter, Walker T., 335
Chester, Brent, 550
Ciemins, Vilnis A., 145
Cioffi, Albert F., 693
Cleymaet, John E., 388
Cohen, Elias, 303
Cohen, Richard J., 394
Copeland, Bradley E., 153, 224, 281
Currarino, Guido, 518

Danowski, T. S., 239
Davey, Frederick R., 687
Dean, Gerald S., 603
Dehner, Louis P., 43
DeLand, Frank H., 58
de Lange, Jannie A., 599
Deppisch, Ludwig M., 489
Diederichsen, Hans, 123
Dische, Renate M., 445
Dolan, C. Terrence, 339, 358
Donowho, Everett M., 489

Edwards, Creighton L., 118
Eernisse, George J., 599
Enterline, H. T., 630
Erickson, Charlotte, 394
Ewing, Nancy S., 567

Fasce, Charles F., Jr., 475
Fayemi, Alfred, 343
Fisher, Edwin R., 99, 239
Fiske, M. Lawrence, 687
Foote, Frank W., Jr., 231
Frable, William J., 659
Frenkel, Eugene P., 260
Frumin, Abraham M., 531

Garg, Sudershan K., 668
Garmezy, Larry, 305
Gay, Douglas M., 604
Gerber, Michael A., 343
Ghosh, M. L., 702
Gindler, E. Melvin, 376
Gladwin, R. C., 469
Glenn, Guy C., 326
Gochoco, Jacinto, J., Jr., 605
Goldberg, Morris H., 567
Golden, Walter, 26
Goldman, David S., 434
Goldsmid, J. M., 165
Gonzalez, A. R., 239
Gordon, Herschel W., 51
Grams, Ralph R., 177, 182, 188, 201, 208, 216
Grann, Victor R., 26
Grant, James A., 365
Grayson, John W., Jr., 405
Gulbrandsen, C. L., 64

Hansen, Robert J., 255
Harrison, Janet, 272
Heggen, Darrol W., 37
Hensley, Manuel, 305
Homewood, Kathryn, 26
Horvat, Branimir L., 99
Horwitz, Charles A., 305
Hotchi, M., 654
Hunt, Patricia K., 68
Hurst, Robert, 579
Huvos, Andrew G., 231

Inaba, Yutaka, 590
Isaacson, James, 255
Ito, Umeo, 590

Jain, Ratan C., 225
James, A. Everette, Jr., 58
Jatlow, Peter I., 583
Jeffery, R. A., 64
Jennings, Anne, 554
Johnson, Eugene A., 177, 182, 188, 201, 208, 216
Jones, H. Michael, 220

Kagan, Irving G., 170
Kay, Saul, 458, 659
Kehn, Brent D., 326
Keller, Martin D., 37
Kerson, Robert, 275
Kessler, E., 642
Khurana, R. C., 239
Kidder, Wayne R., 675
King, John D., 376
Kline, Tilde S., 475
Knieser, Martial R., 579
Komarmy, Louis, 275, 428
Konigsmark, Bruce W., 58
Kornfeld, Peter, 647
Kott, Edna, 647
Kunin, Calvin M., 371
Kutty, K. M., 599

Ladd, Daniel J., 58
Lang, Gordon E., 68
Lennette, Edwin H., 317
Leveson, James E., 300
Lewis, Jessica H., 400
Lichtiger, Benjamin, 501
Linde, Niels Christian, 123
Logan, Laurence J., 675
Lukes, Robert J., 607
Luna, Mario A., 501
Lyon, Fred, 305
Lyon, George M., Jr., 383

Machtey, I., 245
MacKnight, Nancy M., 558
Maguire, Raymond, 153
Mahomed, K., 165
Malowany, Moises S., 550
Malspeis, Louis, 17
Maltby, Ann, 687
Mandel, Emanuel E., 415
Mann, Joseph D., 349
Marengo-Rowe, A. J., 300
Mayson, James S., 297
McCall, Mary Sue, 260
McIntyre, O. Ross, 422
McMahon, N. J., 51
Medina, Jesus Weir, 531
Metzger, Russell C., 606
Miller, William L., 450
Minn, Sang K., 415
Minton, Paul D., 260
Misra, R. P., 135
Monif, Gilles R. G., 445
Moquin, Ross B., 601
Mueller, Rudolph G., 68
Murphy, William M., 479
Myhre, Byron A., 698

Nakamura, Robert M., 297, 388
Nakamura, Takamitsu, 365

Single issue price: $3.50.

TABLE OF CONTENTS

JULY TO DECEMBER 1972

Number 1, July 1972

Pernicious Anemia: An Ultrastructural Study of the Bone Marrow before and after Vitamin B_{12} Therapy. BERTRAM SCHNITZER, MASAMICHI AIKAWA, AND HERBERT H. SPENCER..... 1

A Whole Blood Solubility and Centrifugation Test for Sickle Cell Hemoglobin: A Clinical Trial. B. E. SERJEANT AND G. R. SERJEANT..... 11

Leukocyte Antigens and Disease: II. Association of HL-A5 and Lymphomas. VISHRAM REGE, RAMON PATEL, AND WILLIAM A. BRIGGS..... 14

Factors Affecting the Quantitative Evaluation of the Uni- and Bidirectional Reactions of Mixed Leukocyte Cultures. BERTHA A. BOURONCLE, LOUIS MALSPEIS, AND JOAN F. ASCHENBRAND..... 17

Polybrene Neutralization as a Rapid Means of Monitoring Blood Heparin Levels. VICTOR R. GRANN, KATHRYN HOMEWOOD, AND WALTER GOLDEN..... 26

Computer Calculation of Electronic Platelet Counts. WILLIAM E. NEELEY..... 33

A Dual Quality Control System for Large Clinical Laboratories. DARROL W. HEGGEN, HOWARD A. I. NEWMAN, AND MARTIN D. KELLER..... 37

Sarcoma of the Prostate Gland. BRUCE H. SMITH AND LOUIS P. DEHNER..... 43

Adenoid Cystic (Cylindromatous) Carcinoma of the Uterine Cervix: Report of Two Cases. HERSCHEL W. GORDON, N. J. MCMAHON, CARL M. AGLIOZZO, P. R. RAO, AND JAMES ROGERS..... 51

Normal Pressure Hydrocephalus: A Histologic Study. FRANK H. DELAND, A. EVERETTE JAMES, JR., DANIEL J. LADD, AND BRUCE W. KONIGSMARK..... 58

Laboratory Suggestions:

An Instrument for Measuring Radial Immunodiffusion Precipitates. R. A. JEFFERY, T. E. REED, AND C. L. GULBRANDSEN..... 64

A Modification of the Beckman Microzone Cell for Performance of Immunoosmophoresis on Agarose Coated Plates. RYDIA E. ALMY AND F. D. ZIEGLER..... 66

Sample Port Modification of the I. L. Model 182 CO-Oximeter. GORDON E. LANG, RUDOLPH G. MUELLER, AND PATRICIA K. HUNT..... 68

Recommended Methods for Radioisotopic Erythrocyte Survival Studies. INTERNATIONAL COMMITTEE FOR STANDARDIZATION IN HEMATOLOGY..... 71

Minutes of Meeting of Members of the American Society of Clinical Pathologists at Annual Meeting, October 28, 1971..... 81

Abstracts of Papers. Scientific Sessions of the Interim Meeting of the American Society of Clinical Pathologists, February 4–11, 1972..... 88

Number 2, August 1972

Ultrastructural Features of Mycosis Fungoides. EDWIN R. FISHER, BRANIMIR L. HORVAT, AND HARRY L. WECHSLER..... 99

The Concept of Benign Metastasizing Hydatidiform Moles. ALVIN M. RING..... 111

A Comparative Study of the Endometrial Jet-washing Technic and Endometrial Biopsy. SALVATORE D. ABATE, CREIGHTON L. EDWARDS, AND FRANK VELLIOS..... 118

Immunofluorescent and Enzymatic Staining of Bile Canaliculi in the Same Sections of the Liver. PER MØLLER NIELSEN, HANS DIEDERICHSEN, AND NIELS CHRISTIAN LINDE..... 123

Polysplenia with Severe Congenital Heart Disease and Howell-Jolly Bodies. A. E. RODIN, J. A. SLOANE, AND Q. X. NGHIEM..... 127

Isolation of Glomeruli from Mammalian Kidneys by Graded Sieving. R. P. MISRA..... 135

Residency Training in Clinical Chemistry: A Review of Behavioral Objectives. MYRTON F. BEELER 140

Radial Immunodiffusion of Spinal Fluid: Diagnostic Value in Multiple Sclerosis. JEROME J. BERNER, VILNIS A. CIEMINS, AND EDMUND F. SCHROEDER, JR. 145

A Study of the Effect of Sample Collection on the Measurement of Lactate in Whole Blood. RAYMOND MAGUIRE AND BRADLEY E. COPELAND 153

Nuclear Lobulation and Cytoplasmic Fibrils in Leukemic Plasma Cells. GERMAN BELTRAN AND W. J. STUCKEY 159

The Use of the Microhematocrit Technic for the Recovery of *Borrelia duttonii* from the Blood. J. M. GOLDSMID AND K. MAHOMED 165

A Preliminary Report of an Indirect Fluorescent Antibody Test for Detecting Antibodies to Cysts of *Pneumocystis carinii* in Human Sera. LOIS NORMAN AND IRVING G. KAGAN 170

Laboratory Data Analysis System: Section I—Introduction and Overview. RALPH R. GRAMS, EUGENE A. JOHNSON, AND ELLIS S. BENSON 177

Laboratory Data Analysis System: Section II—Analytic Error Limits. RALPH R. GRAMS, EUGENE A. JOHNSON, AND ELLIS S. BENSON 182

Laboratory Data Analysis System: Section III—Multivariate Normality. RALPH R. GRAMS, EUGENE A. JOHNSON, AND ELLIS S. BENSON 188

Laboratory Data Analysis System: Section IV—Multivariate Diagnosis. RALPH R. GRAMS, EUGENE A. JOHNSON, AND ELLIS S. BENSON 201

Laboratory Data Analysis System: Section V—Trend Analysis. RALPH R. GRAMS, EUGENE A. JOHNSON, AND ELLIS S. BENSON 208

Laboratory Data Analysis System: Section VI—System Summary. RALPH R. GRAMS, EUGENE A. JOHNSON, AND ELLIS S. BENSON 216

Letters to the Editor:

Ampicillin Crystalluria. H. MICHAEL JONES AND W. A. SCHRADER, JR. 220

Millimolar Malady. RODNEY E. WILLARD 223

Uric Acid Standards. SIDNEY V. RIEDER 224

Reply by Doctors Copeland and Aaronson. BRADLEY E. COPELAND AND ARTHUR G. AARONSON 224

The Diagnosis of Homozygous Hemoglobin D Disease. BELA RINGELHANN 224

Doctor Jain's Reply. RATAN C. JAIN 225

In Memoriams:

James H. Householder, M.D. RALPH M. WEAVER 227

William V. Young, M.D. DONALD F. SHIELDS 227
